Definitions

Cookies for 3rd Party Marketing:	For specific integrations our partners may need to enable cookies to provide functionality through the platform.
Cookies for Corcentric Recommendations:	We may use some cookies to introduce or match you to Corcentric-specific products and services that may support your business need or interests.
Necessary and Functional:	Some cookies are strictly necessary to make our Software Services available to you. For example, to provide the login functionality, and to remember your consent and privacy choices. We cannot provide you with the Software Services without these types of cookies.
