Top 10 Reasons To Join

Whether you are a private Fleet or truckload carrier, Corcentric Fleet Procurement can put you on the road to a more productive transportation operation.

01

Single source solutions:

One place to go for all of your transportation needs.

02

Flexible transportation management options:

You choose the services you need.

03

A relationship with a dedicated organization:

Our mission is to help you achieve excellence by providing you with best-in-class solutions for your transportation program.

04

Knowledgeable, experienced team of employees:

We have the industry expertise and know-how to work with you to determine how we can best meet your needs.

05

Outsourcing savings:

Save up to 20% of more on your fleet's operational expenditures. Eliminate up-front costs, maintenance expenses, and assets from your books.

06

Improved asset management:

We can help you achieve a better return on investment from vehicles and other equipment. Customers can realize 15–20% cost savings with our assistance in replacing assets, reducing holding costs, operational savings, and remarketing efforts.

07

Supply management savings:

The average 100-truck fleet saves up to 20% annually by purchasing through our system. We have more than 160 programs available with the industry's leading suppliers. By leveraging the strength of more than 800,000 vehicles in our network, companies can realize the same purchasing benefits as large-scale corporate entities.

08

Intelligent purchasing with simple supply management and spend analysis abilities:

Because all transactions are electronic, you can track purchase history and view all transactions online.

09

Access to knowledge to improve fleet operations:

Our industry-wide knowledge exchange enables you to share best-practices with peers. In addition, our annual Corcentric Symposium enables attendees to learn, network, and collaborate on best business practices in the industry.

10

Back office efficiencies:

All members are connected to our automated invoice platform, which streamlines the traditional order-to-fulfillment process.
