Streamline, automate, and enhance your
invoicing and payment processes with

Corcentric EIPP

corcentric.com

Corcentric EIPP is a managed service dedicated to streamlining, automating, and enhancing business invoicing, from delivery through to payment. Corcentric EIPP ensures accurate and efficient delivery of invoices to your customers in the medium which suits them, from envelopes to email to EDI.

Beyond saving time and cost through invoice automation, Corcentric EIPP enables a risk-free and seamless shift towards electronic invoicing, reducing errors, and driving down Days Sales Outstanding (DSO).

Why Corcentric EIPP?

As electronic invoicing becomes the new global standard, businesses need to transition away from traditional paper-based invoicing quickly, reliably, and cost effectively. The Covid-19 pandemic and shift to remote working have highlighted an urgency to transition from standard methods of invoice delivery, in which recipients are no longer guaranteed to be at a specific office address to receive them.

Corcentric EIPP facilitates the move away from traditional paper-based invoicing, to e-invoicing of all types. Corcentric has over 20 years of experience in migrating global businesses to e-invoicing, providing onboarding, support, and ongoing management of the EIPP service.

Corcentric EIPP plugs the gap between ERP systems and the successful delivery and payment of invoices, removing uncertainty, risk and time-consuming manual processes.

No more manual invoice creation. No more manual uploads to accounts payable or government portals. Automation, simplicity and reliability of invoice delivery and payment.

**82% average conversion
rate to electronic invoicing**

**100% automated delivery
to AP invoicing portals**

**18 million documents
sent every year**

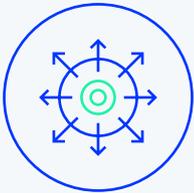

**£197 billion in invoice value
delivered every year**

What is Corcentric EIPP?

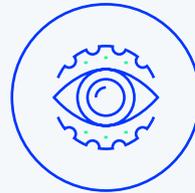

Corcentric EIPP is a class-leading managed service, combined with an innovative online portal to provide maximum control and visibility, while streamlining and automating the operational complexities of invoice delivery for any format, to any network, at any time. We deliver a suite of software, services, and expertise for an electronic invoicing solution that is trusted by global businesses for the capabilities listed here.

MANAGED SERVICES

Distribution

Confidently outsource the delivery of your invoices and associated accounts receivable documents to Corcentric's highly nuanced multi-channel distribution service. Delivery success is monitored and Corcentric EIPP will try again, or try by another method as appropriate, to ensure delivery.

Creation

Go way beyond the limitations of invoicing directly from an ERP system. Bring together disparate data sources, define the styling and formatting, and control document delivery more precisely than ever before.

Migration

Leverage Corcentric's proven results-driven process to migrate your customers away from paper-based invoicing and postal delivery to email, EDI, and other digital delivery methods.

Automation

Identify and automate repetitive manual invoice delivery processes. Using a direct electronic connection, remove the need to upload invoices to customer, government, and public sector portals.

TECHNOLOGY

Web Portal

Access the secure online EIPP platform; tailored to your specific needs, offering customised design, layout, and functionality.

Client Control Centre

Gain complete control and visibility of the creation and distribution of invoices and associated documents.

Client Reporting

Generate real-time delivery reports, audit logs, payment status, and KPI reporting directly from the portal.

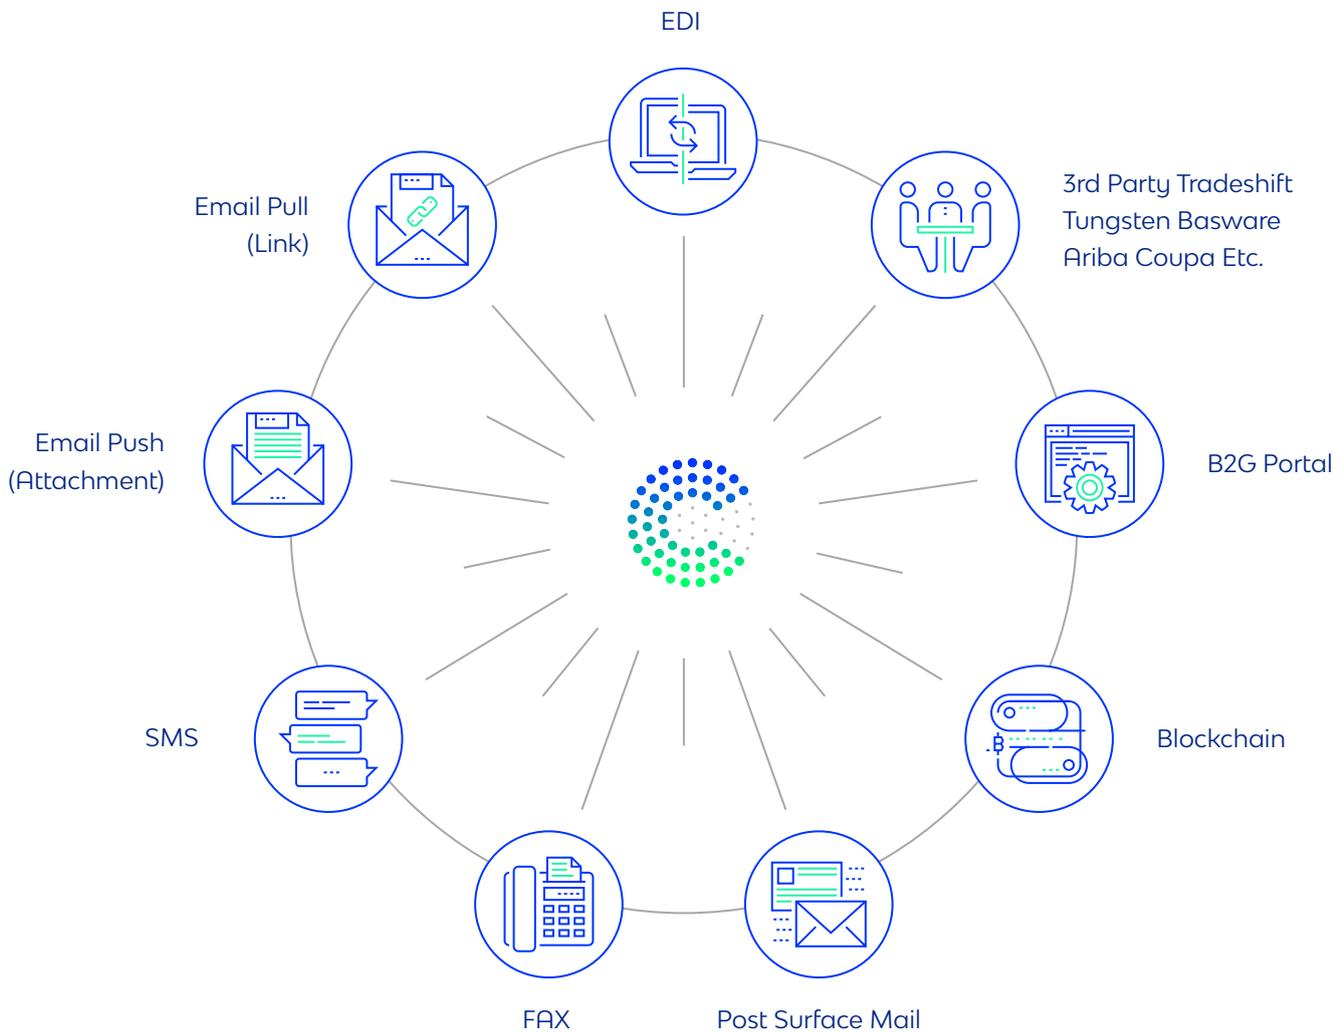

Customer Self-Service

Provide your customers access to view, download, print, and query invoices, as well as manage their contact details and communication preferences via their own online portals.

Distribution Channels

Corcentric EIPP can distribute documents via every possible invoice delivery channel. Centralised delivery management, via the admin portal, provides unified control and visibility of status, regardless of distribution channel.

VF Corporation moved from 100% printed invoicing to electronic format, significantly reducing costs and enabling the online management of invoicing across a range of international brands, including Timberland and North Face.

A global healthcare leader and one of the largest pharmaceutical companies in the world. MSD has worked with Corcentric EIPP for over seven years to send documents from offices in 15 different countries.

Corcentric helps easyJet stay compliant with the need to ensure ground crew manuals are read by staff each year, and when ad hoc changes are made. The Corcentric EIPP portal provides delivery and read receipts that track compliance in review.

The Guardian saves between three and five days per month on previously manual invoicing processes. EDI invoicing has enabled The Guardian to maintain relationships with large-circulation clients across the UK. Over 70% of their invoices are sent electronically by Corcentric EIPP.

Total Gas and Power sent 2.4M documents via Corcentric EIPP in 2019 and has increased the percentage sent electronically to 79% in 2020. Their customers have the ability to pay their invoices online via the Online Payments functionality of the Corcentric EIPP portal.

Unisys, a global information technology company, has deployed Corcentric EIPP across offices in 27 countries, with more to follow. Multilingual customer and admin use is enabled for six languages via the Corcentric EIPP portal.

Doosan Bobcat has worked with Corcentric EIPP since 2013 to automate production and delivery of over 14,000 invoices per month. Corcentric enabled Doosan to migrate from SAP to Oracle ERP systems without skipping a single invoice delivery.

ITV has relied on Corcentric EIPP for the electronic delivery of invoices and statements since 2006. In addition to standard Corcentric EIPP functionality, ITV uses its Corcentric EIPP portal to share links to a range of documents.

Bausch & Lomb has been quick to take advantage of the benefits of outsourcing critical document distribution – moving to a 60% electronic format for invoices, dunning letters, and statements within six months of go-live.

A Corcentric client since 2009, Travelport uses Corcentric EIPP to deliver over 45,000 documents each month from offices in 24 countries. All 24 country offices use one multi-tiered portal in a range of languages. This provides localised segmentation along with top-level aggregation and holistic account overview.

Ralph Lauren relies on Corcentric EIPP to support orders in 5 different languages across 12 different countries – from order confirmation and packing lists through to invoicing, remittance, and associated documents. Extensive work was undertaken to ensure legal compliance for electronic delivery in each territory.

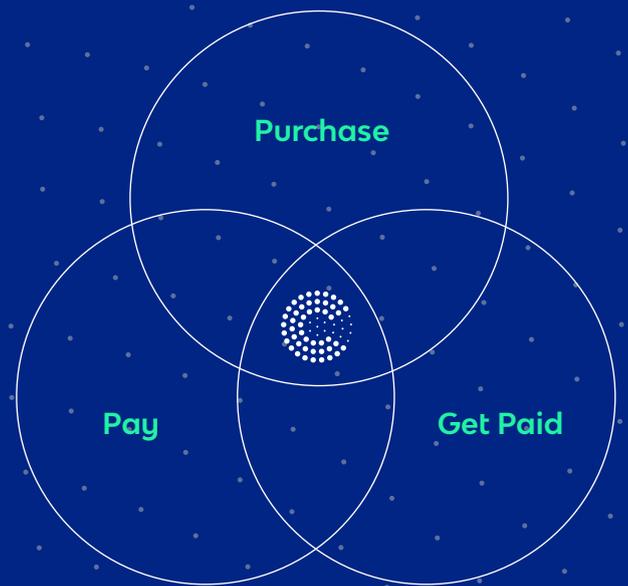

Starting with MTV in March 2010, Corcentric EIPP was then embraced by the parent company Viacom for electronic document distribution. Since Viacom became ViacomCBS, Corcentric EIPP is still used for sending e-invoices, remittance, statements, and other financial documents to their customers in 10 different languages globally.
