

MANAGED PROCUREMENT

*Streamline operations,  
generate savings, and  
drive innovation*

*As a part of Corcentric's robust Managed Services offering, Managed Procurement combines service, technology, and financing to generate positive business outcomes. Finding the right supplier at the right time for the right price is challenging. We remove the burden and stress of procurement with technology solutions and expert resources so you can focus on growing your business. The process to optimize procurement starts with a focus on your business processes, whether you are shifting from manual processes to digital, in-house to outsourced, or a combination.*

#### MANAGED PROCUREMENT HIGHLIGHTS:

Hybrid or full outsource models to scale with your changing business needs

Entire suite of S2P modules that can be configured to fit your business's procurement needs (Sourcing, SIM, SPRM, CLM, Procurement)

Advisory will recommend best business practices are followed to drive key outcomes for your business

## Focused on Your Business Outcomes

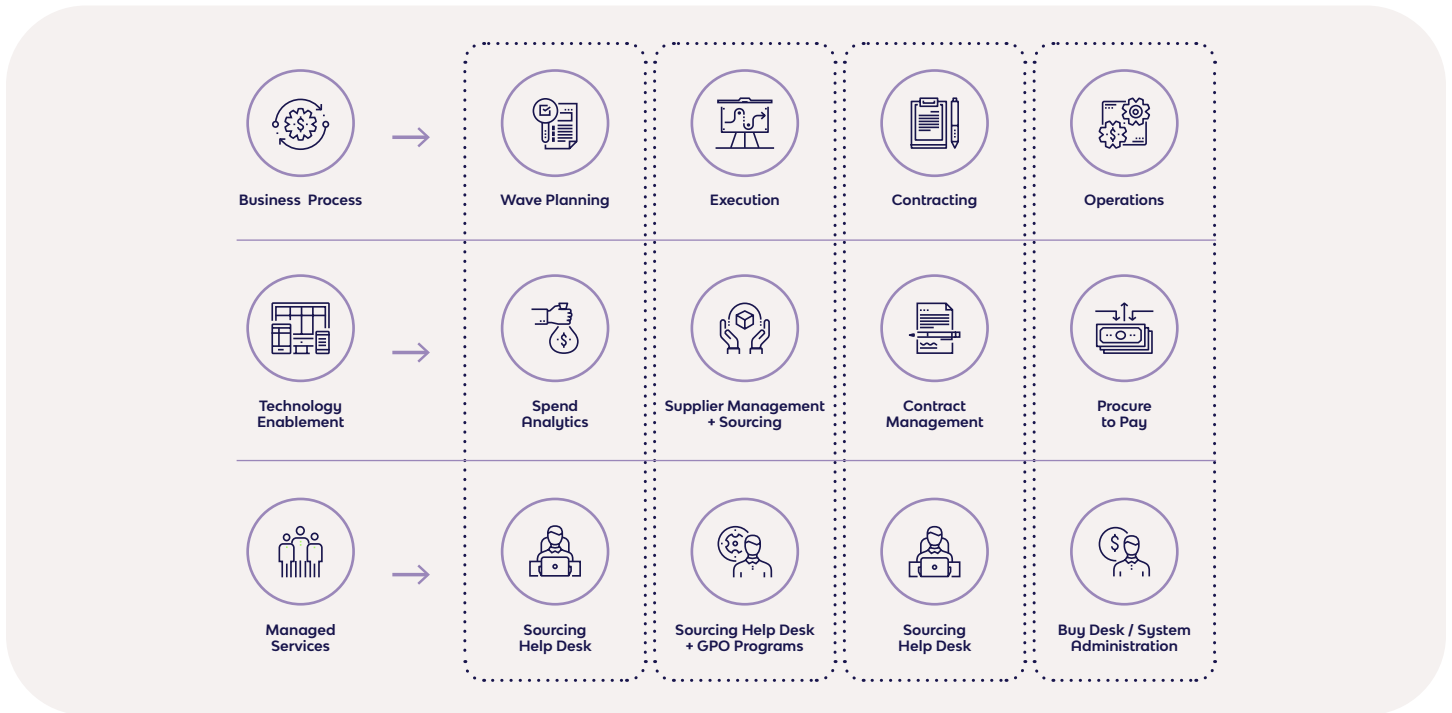

Our Managed Procurement solutions are designed to help you achieve your targeted business outcomes, through:

- **Tailor Made Solutions** – Do you need to find a specific supplier during a critical time? Whether it be developing a category management strategy, building and running an RFP, or executing 3 bids and a buy to find you the best price — Corcentric has the expertise to find the right supplier for your current and future business needs.
- **Business Visibility** – Leveraging Corcentric's technology platform will provide your finance and procurement organizations with visibility into the liabilities of your business like never before, enabling on-demand, near real-time, and accurate reporting, so you can feel confident making data-driven decisions.
- **Deep Procurement Expertise** – Our team includes procurement, sourcing, and category management subject matter experts that can handle all policy, to sourcing a new or complex category, to developing supplier management or ESG programs.

MANAGED PROCUREMENT

With advisory services and a collaborative approach, we work with you every step of the way to maximize results, ensure solution sustainability, and enable continuous improvement. Below you can find examples of processes we can enhance with a unique combination of technology and managed services.

## Unlock Tiers of Value

Any one solution – whether offered by a technology provider, a business process outsourcing organization, or a consulting firm – can only provide one element of complete value to you. Combined, Corcentric can seamlessly ensure you benefit from a multitude of value drivers. With our Managed Procurement solution, these benefits include:

**Cost reduction + control**

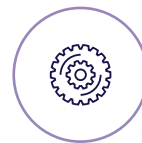

**Visibility into spend**

**Increased spend under management**

**Accelerated time to value**

**Efficiency and compliance**

*Get peace of mind.*
